

Anything Concrete Decorative

Long-Term Cost Savings

Over the span of just a few years, the cost savings for our Polished floor systems are evident. With a more durable floor and a cost-efficient re-polishing process, Anything Concrete Decorative can improve your bottom line by hundreds of thousands of dollars over 10 years alone. Note that other floor systems require 100% of the original cost with each reapplication and each require shut down time because of voc in the products. However, Anything Concrete Decorative requires no down time and can re-polish your facility for about one-third of the time and cost of our initial service.

Floor System	Average Upfront Cost	Reservice Rate*	Average Reservice Frequency
Paint	\$.60 per sqft.	100% + 1%	Reapply every 9 months
Acrylic	\$.75 per sqft.	100% + 1%	Reapply every year
Urethane	\$1.89 per sqft.	100% + 1%	Reapply every 2 1/2 years
2 pt. Epoxy	\$2.00 per sqft.	100% + 1%	Reapply every 2 1/2 years
